Dear Parents and carers,

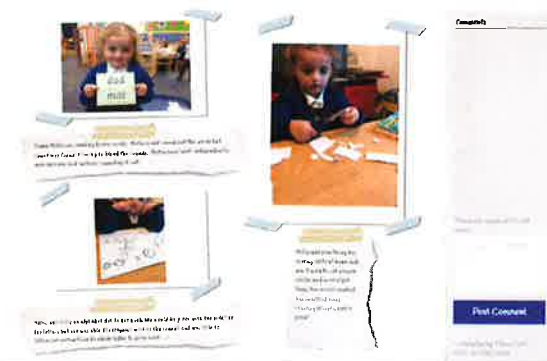

Do you find it hard to find out what your child has been learning at school? All Reception and Nursery children attending Beaver Green have a personal online Learning Journal which records photos, observations and comments, in line with the Early Years Foundation Stage, to build up a record of your child's experiences during their time with us. So now you can see what your child has been doing on a regular basis!

The best bit about it is, you as parents can log on and see what your child has been up to. We use a system called Early Excellence Tracker. We give you an access code (please see attached) and then you can log on and see what your child has been learning. When you are all set up, there is an app you can download which makes logging in even easier. You can comment on the photos and then even add your own photos of what your child has been doing at home! We used this system last year and parents said they really enjoyed seeing what their child had been doing. These photos can be of any learning you complete at home; fun things you've done at the weekend or just something your child would like to share with us.

We are sure that you will love this new way of viewing your child's achievements as much as we do! Please find attached some information about how to get set up, if you have any questions, then please speak to your child's class teacher. At the bottom of this page you can see examples of the kind of thing you will see on your child's learning journal.

If your child attended our Nursery then you should be able to use the same login details as before. If you have any questions, please speak to your child's class teacher.

Many thanks,  
Miss Clark  
Assistant Head for EYFS and KS1

## Welcome to EExAT for parents!

1. Go to [www.eexat.com](http://www.eexat.com)
2. Click on 'sign up to EExAT'
3. Click on 'register as a parent'
4. Enter your details. Your child's unique code is attached to your child's letter (please ask a member of staff if you do not have this).
5. Set a password. Please note your password must contain;

One UPPERCASE letter

One lowercase letter

One number

One symbol (!@£\$%^&\*)

It must be at least 6 letters long

6. You are now registered. You can now log in by going to [www.earlyexcellence.com/eexat](http://www.earlyexcellence.com/eexat)
7. Click on 'sign up to EExAT'.
8. Login by entering your email address and password.
9. You may now download the app by searching 'EExAT Parent App' and login using your same details.
10. Now you can see your child's journal and add photos for us to see!

# EExAT

## Quick Start Guide for Parents

### Welcome to EExAT!

The Early Excellence Assessment Tracker, is a new online assessment system developed by Early Excellence. It is designed to capture key moments of your child's learning and development, which then helps the teacher/key person to plan new experiences and activities for your child.

You can get involved too by using EExAT to comment on photos and videos from your child's school or setting. You can even share your own photos and short videos from home with your child's teacher!

### To get started complete the following steps:

#### 1. Get the EExAT code

Your child's teacher will give you your child's unique EExAT code.

#### 2. Register and Activate

Please visit [www.eexat.com](http://www.eexat.com) to register 'As a Parent'. You will be asked to create a password and add your EExAT code here. You will only have to add your code once. Each time you log in you will need your email and password.

#### 3. View your details

You should now see your child's details. Please take a moment to check that these are correct. If they are not, please contact your child's school.

#### 4. Download the EExAT Parent App

The EExAT Parents App can be download from the Apple Store, Google Play Store or Microsoft App Store. Simply search for 'EExAT Parent App' and download the relevant app to your device.

### What next?

There are lots of ways you can get involved and you can do so from a range of devices – PCs, tablets, etc. as well as your iphone via the downloadable app. Here is a quick guide to the different functions in EExAT.

- See 'Evidence' – your child's teacher may share some observations of your child with you – these may be a photo, a short video or a written note. You can view these on the Dashboard or go to the Evidence tab. Choose an observation and then 'View Evidence' to see more detail. If you would like to read or add a comment simply select your child's name from the drop down box (on the right hand side) and type in your comments here. Please note, currently you are not able to edit comments after they are 'posted'.
- View the Learning Journal – you can view your child's Learning Journal on the Dashboard or by going to the 'Your Children' tab. Click on the link to view your child's Journal. Here you can view (and print) your child's Journal. You can also add comments to the Learning Journal. A comments box can be found on each page. Please note, currently you are not able to edit comments after they are 'posted'.
- Send information – you can share your own notes, photos and videos with your child's teacher! Go to the 'Your Children' tab and click on the 'Submit Evidence'. You can then upload a photo or video from your phone, tablet or PC.

For further information please check the EExAT Parent FAQs (FAQ tab can be found when you log in to your EExAT account) or speak to your child's teacher / key person.
